Consent Form for COVID-19 Testing

Chattanooga Public School has received a COVID prevention grant. A part of the grant gives Chattanooga School the ability to provide COVID testing kits for our students and staff. This consent form allows Chattanooga Public School, **with your permission**, to perform a COVID-19 test for your child at the school. By signing below, you are indicating that you **voluntarily** consent to test for the detection of COVID-19 for your child with symptoms.

COVID-19 Test Information

The test being used is the Quidel QuickVue SARS Antigen Test for rapid detection. Antigen tests are designed to detect proteins from the virus which causes COVID-19 illness. Results will be available in approximately 15 minutes. The school will communicate the results of your child's test to you as well as instructions on next steps. The test results will be shared with the Oklahoma State Department of Health for public reporting, but that does not include any HIPAA-related health information related to specific students.
